

## **IN THE CLAIMS**

Page 7, line 1, change "CLAIMS" to --What is claimed is:--.

Claims 1-7 (cancelled).

8. (New) An interface adapter for receiving a microphone comprising:

a receiving unit having a hole for receiving a microphone; and

at least one arresting unit for arresting a received microphone.

9. (New) The interface adapter as set forth in claim 8 and further comprising

an elongate guide unit for guiding a received microphone.

10. (New) The interface adapter as set forth in claim 8 and further comprising

means for solid-conducted sound decoupling.

11. (New) The interface adapter as set forth in claim 9 and further comprising

means for solid-conducted sound decoupling.

12. (New) The interface adapter as set forth in claim 10 wherein the means for

solid-conducted sound decoupling are in the form of rubber rings.

13. (New) The interface adapter as set forth in claim 11 wherein the means for

solid-conducted sound decoupling are in the form of rubber rings.

14. (New) The interface adapter as set forth in claim 8 and further comprising

a buffer in the through hole.

15. (New) An interface adapter for receiving a microphone comprising:

at least one guide element for receiving a microphone;

at least one arresting unit for arresting a received microphone; and  
a connecting element for connecting the guide elements.

16. (New) An interface adapter as set forth in claim 15 wherein  
the guide element has a groove-shaped recess for receiving a microphone.

17. (New) An interface adaptor as set forth in claim 8 wherein the interface  
adaptor provides a fixing for a microphone on an interface, in particular a flat interface.
